

Abstract Submission

e-Latin Food 2020 will also include oral and poster sessions, where the authors present their research results. Considering the uncertainty of recent weeks, the Organizing Committee has decided to extend the deadline for abstract submission. Then, the [abstract submission website](#) will be open until **July 10, 2020**.

Acceptance of the submitted works, as well as the presentation modality (oral of 15 minutes, including time for questions, or digital posters), will be communicated by E-Mail on **August 9, 2020**. The E-mail address provided to receive notifications must be that of the author, who will present the work. Participants are invited to prepare and submit their abstracts in time to be considered in one of the Congress areas:

Emerging Technologies and Food Preservation
Food Biotechnology
Food Processing and Engineering
Functional Foods
Food Products Development and Sensory Evaluation
Food Safety and Food Microbiology
Nutrition and Nutrigenomics
Sustainability, Food Laws and Regulations

For questions related to the format, sending the abstracts and acceptance letters, please send an E-mail to the following address: abstracts.latinfood@gmail.com

Publication Opportunity

The Scientific Committee will select the best-qualified abstracts, which will have the opportunity to be published in one of two options. The 90 best works will be published by **Revista Internacional de Investigación e Innovación Tecnológica (RIIT, <https://www.riit.com.mx>)**, which is a scientific journal recognized by CONACyT. The authors of these works will receive an invitation to send a manuscript that complies with the journal's author instructions. Other selected works will receive an offer to submit a manuscript to be published as a book chapter with ISBN, which will be edited by AMECA.
